

Half a shape

Written by Liz Gibbs

The Busy Lizzie Maths Library

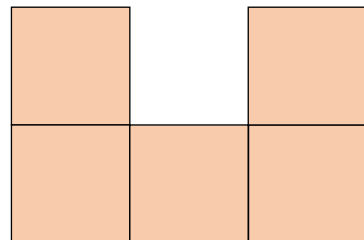

Half a shape

This is half a shape.

It is made up of 5 small squares.

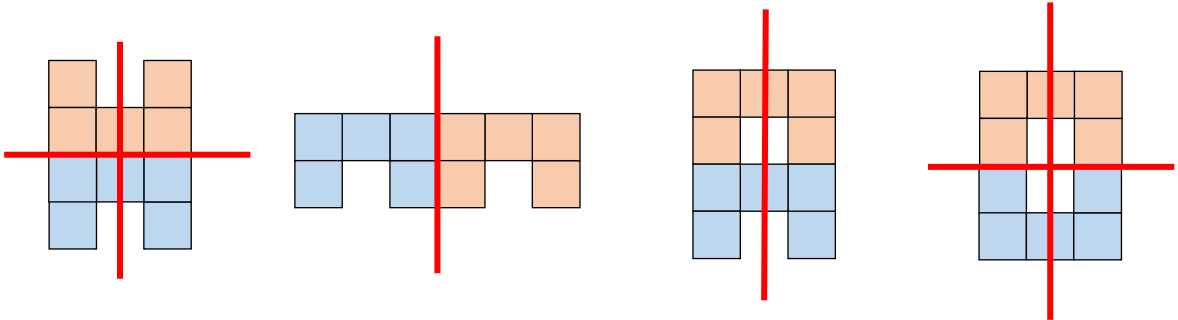

Can you build or draw as many different whole shapes the original could have been.

Mark any lines of symmetry of these shapes.

Half a shape

Here are some solutions showing vertical and horizontal lines of symmetry.

Half a shape

Here are some solutions that show the whole but have no lines of symmetry
